

GM UNIVERSITY

ARTIFICIAL INTELLIGENCE & MACHINE LEARNING

Industry Pathways in **Artificial Intelligence**

Mr. Pruthvi Sagar G P

Corpnce Technologies
AIML Instructor

Venu

Civil Seminar Hall

Date

21 Nov, 2025

Time

1:00 to 2:00

Organised By
Dept. AIML, GM University

Pruthvisagar G P

MACHINE LEARNING INSTRUCTOR

Bengaluru | +91 87460 62764 | pruthvirc18@gmail.com

Summary

Machine Learning Instructor with a strong foundation in AI, Data Science, and Applied Mathematics. Passionate about simplifying complex ML concepts by connecting mathematical intuition with real-world applications. Experienced in designing structured, math-focused ML courses that bridge the gap between theory and practice through intuitive visualisations and interactive demonstrations using graphing calculators. Skilled at guiding learners through core topics such as Linear Algebra, Statistics, and Deep Learning, helping them build a deep conceptual and graphical understanding of Machine Learning

Experience

Corpnce Technologies | Lead Machine Learning Instructor **2024-Present**

- **Curriculum development:** Architected a progressive syllabus that maps mathematical theory → algorithm derivation → practical implementation, enabling learners to move from intuition to code in 6–8 weeks.
- **Hands-on pedagogy:** Built reproducible lab notebooks and graded projects where students implement linear regression, PCA, gradient descent, Bayesian inference and regularization techniques using real datasets.
- **Outcomes & mentorship:** Ran weekly office hours and project reviews; guided capstone teams from problem scoping to production-level evaluation metrics and demo presentations.

Projects

• BPE Tokenizer

I trained a small BPE tokenizer on a custom text dataset to see how vocab size affects sequence length and Transformer training. Tried 5k, 8k and 16k vocab sizes, compared token splits, and plugged the tokenizer into a small encoder model to observe how training loss and memory use changed.

• LLM configs eval

I ran a set of experiments on a small Transformer model by changing only core architectural settings: number of heads, embedding size, depth, dropout and learning rate schedules. Tracked how these changes affected stability, training speed and validation loss. The project helped me understand which parts of the architecture impact performance the most.

Education

GM Institute of technology(VTU), BE in AI ML

2020-2024

Event Report: Industry Pathways in Artificial Intelligence

The **Department of Artificial Intelligence and Machine Learning (AIML)**, GM University, successfully conducted an insightful session titled **“Industry Pathways in Artificial Intelligence”** on **21 November 2025**. The event aimed to guide students on real-world AI career opportunities, industry trends, and essential skills needed to excel in the field of Artificial Intelligence.

Speaker Details

Mr. Pruthvi Sagar G. P

AIML Instructor, Corpncce Technologies

AIML Alumni, GM University (2023–24 outgoing batch)

Event Details

 **Date:** 21 November 2025

 **Time:** 1:00 PM to 2:00 PM

 **Venue:** Civil Seminar Hall, GM University

Session Highlights

The session offered students a comprehensive understanding of:

- Various career pathways in Artificial Intelligence and Machine Learning
- Current industry expectations and skill requirements
- Practical insights into tools, technologies, and learning roadmaps
- Opportunities in corporate roles, research, and emerging AI domains
- Industry-aligned approaches for project building and portfolio development

Mr. Pruthvi shared his professional journey and experience, motivating students to build strong technical foundations and develop project-based learning habits. Students actively participated and clarified their doubts regarding internships, job roles, and industry readiness.

Outcome

The session was highly beneficial for AIML students, providing them with clarity and direction for pursuing careers in AI. The guidance shared by the speaker will help students align their learning with industry standards and prepare for competitive job roles.

"Industry Pathways in Artificial Intelligence By Pruthvi Sagar G P "

This form collects responses related to participants' interests, understanding, and career preferences within the various industry pathways in Artificial Intelligence.

1. Email *

2. 1. Full Name

3. 2. USN

4. 3. Email Address

5. 4. How clear was the explanation of the different AI industry pathways?

Mark only one oval.

☐ Very clear

☐ Clear

☐ Neutral

☐ Slightly unclear

☐ Not clear at all

6. 5. How engaging did you find the content on Artificial Intelligence?

Mark only one oval.

- ☐ Extremely engaging
- ☐ Moderately engaging
- ☐ Neutral
- ☐ Slightly engaging
- ☐ Not engaging

7. 6. Which part of the session added the most value for you?

Mark only one oval.

- ☐ Overview of AI pathways
- ☐ Career guidance
- ☐ Technical explanations
- ☐ Real-world applications
- ☐ All of the above

8. 7. How confident do you feel about choosing an AI career path after this session?

Mark only one oval.

- ☐ Very confident
- ☐ Confident
- ☐ Neutral
- ☐ Slightly unsure
- ☐ Not confident

9. 8. How useful do you find the session/learning material on AI industry pathways?

Mark only one oval.
