### Placement Activity - Report on "Logical Reasoning"

**Class:** AI1A

**Date:** 11-11-2025

**Time:** 1:30 to 4:00 PM

**Activity:** Logical Reasoning

A Logical Reasoning Session was conducted by the Department of AIML for AI1A – I Semester AIML students to enhance their logical thinking and problem-solving skills. The event was organized by V Semester AIML students for their juniors. It focused on topics such as Puzzle, Logical Grid, Coding and Decoding. Participant's programs were evaluated based on correctness, efficiency, clarity, and logic. The students participated actively.

Our main goal was to help students learn about technology and practice their problem-solving skills in a fun way.

The activity was started at 1:30 PM. Students worked on solving logic-based questions on an individual basis and even in groups.

The questions and clues were about topics like Coding and Decoding, Logical Grid, Age Riddles, Yes or No Mystery, Pattern Recognition, and Seating Arrangement. Students were not allowed to use phones or websites to find answers.

All of them actively participated in the Question and Answer Session, Group Discussion, and Debate.

We have conducted a quiz based on the concepts and questions discussed in the session and we got great response. Students enjoyed getting involved.
