Report on Poster Presentation “AI in daily Life”

The Department of Artificial Intelligence and Machine Learning organized a fun and educational activity called “**Poster Presentation “AI in Daily Life”**” for 3rd semester A section students on **07/11/2025**.

The main aim of the poster presentation session was to give students an opportunity to explore their creativity and share what they’ve learned in a visual and engaging way. It was designed to help them improve their research and communication skills, work better as a team, and gain confidence while presenting their ideas to others.

The activity started at 1:30 PM, where students prepared and presented posters in small teams of 3 to 4 members.

The posters were evaluated based on creativity, content accuracy, visual presentation, and clarity of explanation. The topics covered a wide range of subjects related to the course, encouraging students to present their ideas in an innovative and visually appealing manner. Students were expected to design original posters using their own research and understanding, without relying on any unauthorized sources or pre-made templates.

The students showed great enthusiasm and creativity throughout the session. Many came up with unique ideas and presented their topics in visually appealing and well-organized posters. Most participants demonstrated a strong understanding of their subjects, while a few found it challenging to present complex concepts clearly within the limited space of a poster.

For future sessions, the organizers suggested including peer-review rounds, theme-based poster categories, and short preparatory workshops to help students plan and design their posters more effectively.

Outcomes

1. Better understanding of the chosen subjects and related concepts
2. Improved teamwork, communication, and presentation skills
3. Enhanced creativity and confidence in expressing ideas visually
4. Stronger interaction and collaboration among students and faculty
5. Plans to organize regular poster presentation sessions and creative learning workshops

Overall, the Poster Presentation Session was a successful and inspiring event. It helped students develop research, creativity, and communication skills while presenting their ideas in an engaging and motivating way.

Conducted Team:

1. Pavan
2. Vishal Sagar
3. Rishi
4. Sanketh
5. Rohan
6. Sanjay
7. Samarth
