Report on “Tech Quiz And Crossword”

The Department of Artificial Intelligence and Machine Learning organized a fun and educational activity called “**Tech Quiz And Crossword**” for 1st semester AI-1B students on **07/11/2025**.

Our main goal was simple to help students learn more about technology and practice their **problem-solving skills in a fun way**. We also wanted to talk about all the new and current trends in tech. The activity started at **1:30 PM**, students worked on solving logic-based quiz and **crossword individually or in small teams (2 Members)**.

We judged the teams on how many correct answers they got and how fast they were. The questions and clues were about topics like computer basics, new tech news, AI, and famous tech companies. Students had to work as a team, and no one was allowed to use phones or websites to find answers.

The students were very **excited** and **competitive**. Many teams did a great job on the crossword puzzle. The rapid-fire quiz was a bit harder for some, especially the questions about basic computer concepts, AI facts and current tech trends.

For our next event, we think it would be fun to add **buzzer rounds** and **picture or sound questions**. We also might give students a list of tech websites to read beforehand so they can prepare.

Outcomes:

1. Students learned more about current technology.
2. They practiced working together as a team.
3. We are now planning to start a regular quiz club and other workshops.

Overall, “**Tech Quiz and crossword**” was a great success and a really fun way for students to test their knowledge.

Conducted Team:

1. Shreya D
2. Sangeetha N C
3. Sahana B S
4. Tanushree N P
5. Soniya R Shet
6. Vinusree O
