Report on “Tech Talk by Peers” (Logic Building Challenge)

The Department of Artificial Intelligence and Machine Learning organized a dynamic and interactive peer learning session titled “**Tech Talk by Peers**” for 1st semester AI–1C students on **06/11/2025**.

The main goal of the session was to enhance students exposure to emerging technologies and improve their presentation and communication skills. The event aimed to create a collaborative learning environment where students could share knowledge, exchange ideas, and learn from one another. Each team selected a trending technology topic and presented its concept, applications, and real-world impact.

The activity began at **1:30 PM**, with multiple teams delivering engaging presentations on various modern technologies.

The presentations covered topics such as **Artificial Intelligence, Machine Learning, Internet of Things (IoT), Blockchain Technology, Cloud Computing, Data Science, and Cybersecurity**. Students showcased creativity through slides, live demonstrations, and interactive discussions. Faculty members encouraged audience participation through live Q&A sessions, making the event more engaging and insightful.

The students showed **great enthusiasm and creativity**. Many came up with **smart recursive solutions** and **optimized algorithms**. Most participants solved the basic problems well, but some found it hard to handle complex or edge cases.

Each presentation was evaluated based on **clarity, depth of understanding, innovation, and delivery**. The event witnessed active participation and enthusiasm from both presenters and the audience, creating a lively and collaborative atmosphere.

Outcomes

1. Broadened knowledge of cutting-edge technologies.
2. Improved confidence in public speaking.

3. Strengthened teamwork and analytical thinking.
4. Encouraged curiosity-driven and self-motivated learning.

Overall, “Tech Talk by Peers” was a successful and inspiring initiative. It promoted a student-led learning culture, motivating participants to explore new technologies and communicate their ideas effectively. The department plans to continue this initiative regularly to nurture creativity and innovation among students.
